CULTURAL ARTS EDUCATIONAL SCHOOL ASSEMBLY PROGRAMS

A MAGICAL APPROACH TO GEOGRAPHY

A TEACHERS GUIDE

TEACHERS OUTLINE

This program introduces your students to geography and the world we live in. Using large visual aids, the globe, and a large world map - Bob Conrad will show your students where we live and the world around us. Using the talents of Magic, Puppets Ventriloquism , and Story telling Bob Conrad will take your students to China, India, France, Africa, Brazil, and Australia. They will learn where these countries are , and about their culture and people. The program is presented in a lighthearted, entertaining fashion that is both educational and fun at the same time. It is a stepping off point that can lead to in depth discussion in the classroom at any grade level. Please use this program as an introduction and follow up with classroom discussion .

OUR TWO OBJECTIVES

1. First , just as students are taught how to exit the school in case of a fire, they need to learn how to assemble in a quiet and orderly manner. This program is program a **live** which is **spontaneously** presented and not automatically presented as a movie or television program. Therefore, it calls for students to be on extra good behavior. This means reminding them before the program about **good assembly manners**, such as not talking, sitting up straight, keeping hands to themselves and laughing/ applauding the program without booing or whistling.
2. Second, the purpose of the program is to introduce , broaden, and give depth to the individual student's conception of some of the particulars, as well as wide range of material in the study of Geography and the world we live in. Younger students will understand that the world is a big place with more than 200 different countries. They will be introduced to the locations of countries and interesting facts about them. Older elementary students will enjoy the program because it puts the fun back into learning.

SUGGESTED CLASSROOM PREPARATION FOR THIS PROGRAM

Tell your students that several students will be invited to take part in the program. Only those who are seated quietly with their hand raised will be asked. Remind your students to be on good behavior.

Look over the books in the Bibliography or select one from your own school library to read or show to your class to prepare them for what will happen.

SUGGESTED FOLLOW- UP ACTIVITIES:

It has been said that learning occurs as we reflect about what has happened - it is important to allow time for student reflection after the program. Three ways are:

1. Assign the composition of letters relating to the program. These may be addressed to the presenter, the PTA (if they sponsored the program) , the school administrator, or even the local newspaper.
2. Assign the drawing of posters that relate to the program just seen.
3. Class discussion :

- a. Locate on a map the countries highlighted in this program; United States, China, India, France, Brazil, the continents of Africa and Australia.
- b. Discuss the differences in customs and lifestyles in the various countries of the world.
- c. Discuss and play examples of music from the various countries.
- d. Discuss the differences in the way people dress in the various countries of the world.
- e. Discuss the many different animals , and in what countries they can be found.
- f. Discuss the many natural resources , crops, and products, and the countries they come from.
- g. Discuss the many things we in this country get from other countries, and why it is so important that all the countries of the world get along with each other and help each other.
- h. Copy and distribute the Geography Word Search to your class.
